---

Searching for an internship or Entry-Level Position in Software Development

## Education

---

Rochester Institute of Technology - Pursuing BA in Software Engineering

GPA: 3.1

Important courses:

- |   |  |
|---|--|
| -Computational Problem Solving I and II | -Software Development & Problem Solving II |
| -Personal Software Engineering          | -Discrete Math for Computing               |
| -Web Engineering                        | -Intro to Software Engineering             |

## Soft Skills

---

- I have the ability to work in a pleasant, serviceable way with other people.
- Leadership comes naturally to me. I am very capable of organizing events and communicating well with team members.
- I have great communication skills, both written and verbal.
- I can swiftly and efficiently find solutions to problems that come my way.

## Activities

---

- I have done volunteer work with a program called HOBY. This program gave me the opportunity to do tasks such as tie dying t-shirts for kids in hospitals, and cleaning out a cemetery. This program also provided me with a chance to hone in my leadership skills which I believe would help me not only in the workplace, but with my entire future.
- I have been a musician since I was a kid. I have performed live playing either drums, guitar or saxophone on multiple occasions. This includes community events, sports games, etc. My most memorable gig was playing the Star Spangled Banner at the Blue Cross Arena.

## Projects

---

### Home Security System

- A home security system written in C that collects and prints data from sensors around the home.

### Playlist generator

- Create, display, modify, and delete multiple play-lists with songs from a text file.

## Technical Skills

---

C++, Java, C, Unix, Git, Object Oriented Programming
